

Pokemon Online backup script (1.0)

Creates a backup of your Pokemon Online folder

Official support sites: [Official Github Repo](#) - [Official Forum](#) - [Official Download Area](#)

- i. Edit the settings at the top of pokemonbackup.pl if needed
- ii. create a cron job like this:

```
1 1 * * * /root/PokemonBackup/pokemonbackup.pl
```

- iii. This will back up your Pokemon Online installation at 1:01am each day, and keep the last 5 backups.
